DEAR SIRS—I ought to have acknowledged long ngo the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The cholera appeared here soon after we received it. We resorted at once to the Pain Killer, using as directed for cholers. A list was given and our native assistants assured us that eight out of every ten to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to unlittudes of poor people throughout all this region. Our native preachers are never willing to 20 out on their excursions without a supply of the Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very ladifierently received.
